Founded in 2002 by Dr. Jaya Subrahmanyam, Vinayaka Hospital began as a women's health practice and grew into a multi-specialty unit serving families across BTM, Bommanahalli and surrounding neighbourhoods. We focus on getting the small things right — a familiar face at the front desk, doctors who remember your history, and clear answers when you ask a question.

Personalised care

Every patient gets a treatment plan shaped around their history, lifestyle and goals — not a one-size template.

A team across specialties

Obstetricians, paediatricians, surgeons and physicians who actually talk to each other when your case needs it.

Evidence-based practice

Care that follows current Indian and international clinical guidelines — explained to you in plain language.

Call

WhatsApp

Not sure who to consult? Tell us about your concern.

Share a few details and our front desk will route you to the right specialist — usually within the same working day.
