# INFORMATION

*Why Womens Hospital?*

### WHY LAPAROSCOPIC SURGERY?

Laparoscopy is the visualization and Treatment of pathology via tiny minimal openings using sophisticated medical grade cameras, telescopes and surgical instruments. It has tremendous advantages compared to the old method of open surgery. Laparoscopy when performed by a skilled team results in less pain, less blood loss, shorter hospital stay and quick return to normal routine activity. Most of our patients usually stay only **24hrs**.

### 3D LAPAROSCOPY

#### What is 3D Laparoscopy?

Womens Hospital believes in bringing on board the latest developments in Gynaecological Endoscopy which benefit Patients, We are the Worlds first 3D Laparoscopy Centre. The advantages of 3D or the patient are tremendous, safety being the foremost as it allows remarkable depth perception, the surgeon can discern between different tissue planes. This leads to higher accuracy during surgery, less blood loss and gives the patient the advantage of having access to the best technology available in Healthcare

## THE DREAM TEAM

### The Team of Doctors

Our Internationally Qualified team of competent doctors customize your treatment according to the latest protocols and all members of the team are invested in your treatment, safety and recovery. The team at Womens Hospital have decades of Experience and expertise with the best medical grade equipment available.

## AMBIENCE

### Not your typical hospital

The aesthetically designed, refreshingly green, luxurious medical facility induces a sense of wellbeing and serene calmness. It feels more like a hotel than a hospital. This in combination with the smiling compassionate competent care add up to result in quick recovery. We believe in providing an entire Experience to the patient. We provide Wellness, Healthcare and Comfort because our patients deserve the best.
